# Melton Annual Economic Profile 2023

#### Introduction

Since the completion of the last economic profile (2022) there have been many changes to the economy.

The completion of the last profile was marked by the reopening of the economy and the withdrawal of government support for business following the Covid 19 pandemic. The reopening of markets saw a resetting of the economy which led to some businesses/ industries having to rethink how they operate/ do business.

Some businesses/ industries were affected more than others. For many this has been a tough period of trading that has been further exasperated by world events. The resetting of and recovery of the economy looks to go well beyond 2023, the war in Ukraine, staff and skills shortages, energy prices, Brexit, a cost of living crises and inflationary pressures are set to prolong recovery and uncertainty is likely to remain a key feature of the local and national economies.

### Purpose

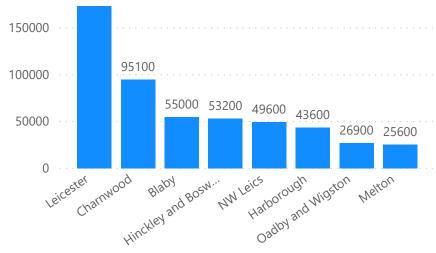

Annual Economic Profiles have been produced since 2013. Their purpose is to bring together data from a variety of sources that:

- Help provide a snapshot of the local economy.
- Demonstrate how the local economy is performing.
- Show what businesses support the economy and local employment and where this is changing.
- Illustrate where there are economic strengths and weaknesses.
- Help to understand where there has been growth and how the economy has changed.

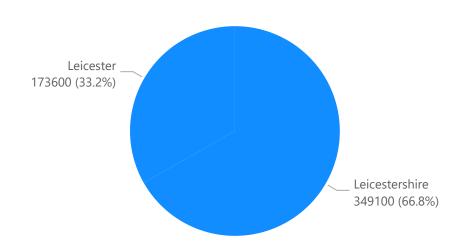

Note: It is important to understand that some data supplied has time-lags. As a result data may not fully appreciate how local and national events have impacted the economy.

### **Economic Activity**

Activity Numbers
2000000 173600

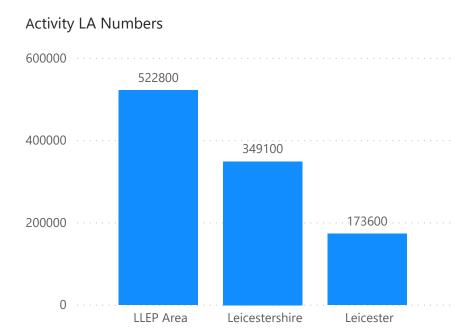

Activity LA Share

# Dissolved & Incorporated Businesses

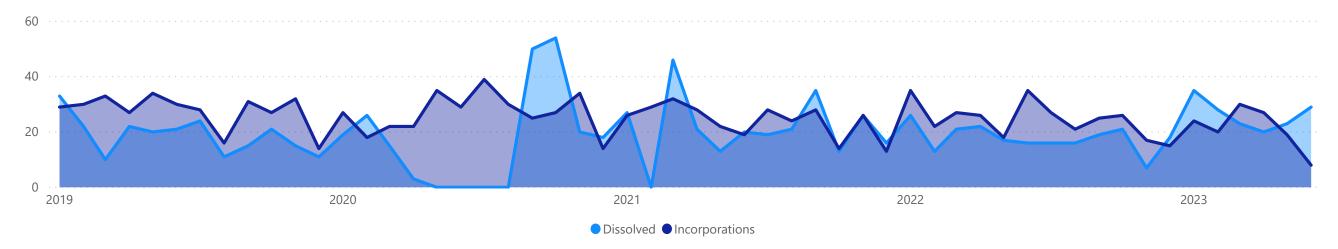

Dissolved and Incorporated Businesses Monthly and YTD

### Dissolved & Incorporated Businesses

Traditionally and as demonstrated in the graphs below, the number of business incorporations has been been larger than business closures. There are a few exceptions to this. Twenty twenty one saw the largest number of dissolved businesses but this was still fewer than incorporations. Year to date figures in 2023 demonstrate for the first time larger numbers of dissolved businesses than incorporated businesses.
